ONSTAGE PHOTOS:

When ordering onstage chorus photos we suggest choosing a more rectangular print size to accommodate the width of the stage. See Examples Below.

8 X 18

8 X 10

For onstage posed photos at conventions we recommend making sure you practice your final onstage pose to make sure that everyone's faces can be seen, as our photographer will not be able to direct the group. These photos are taken at the end of your performance during the applause and are taken automatically without any direction from the photographer.
